

# Pepijn te Winkel

✉ [pepijntewinkel@gmail.com](mailto:pepijntewinkel@gmail.com) 📞 +31 6 81435272 📍 Hilversum

## Education

**Software engineering (MBO)** Aug 2023 - Present  
Media college amsterdam, Amsterdam

## Work Experience

**IT Support** Aug 2025 - Present  
Student aan Huis B.V.-Nederland

- Completed **on-site appointments** providing technical support for clients.
- Diagnosed and resolved **operating system issues**, including **system upgrades and troubleshooting**.
- Fixed **network connectivity problems** to restore stable internet access.
- Delivered clear explanations and practical solutions, improving **customer satisfaction**.

**Delivery Driver** 2022 - 2024  
Uncle Danis Pizza, Hilversum

## Projects

**Emotion Detector – Front-End AI Integration Project** 2025

Media college amsterdam, JavaScript, HTML, CSS, Machine Learning API

- Developed an **emotion detection web app** using **JavaScript, HTML, and CSS**, integrated with a **machine learning API** to analyze facial expressions.
- Implemented detection for **happiness, sadness, and anger**, linking results to tailored **animated responses** that improve user experience (e.g., uplifting animations when sadness/anger is detected).
- Combined **front-end design, animation, and AI integration** to create an engaging and interactive user interface.
- Collaborated in a team setting while being responsible for **designing the interactive logic** and **API integration**, ensuring smooth real-time emotion recognition.
